Restore the Building Plans Examiner II (12-2086), which was eliminated in FY2017. This position is responsible for supervising and mentoring plan review staff and for code adoption activities. The Building Plans Examiner I (12-2085) is necessary to maintain plan review processing times. These positions are currently filled and were mistakenly omitted from the FY2021 Governor's budget request. This action brings them on budget for FY2021.

Eliminate two Building Plan Reviewer positions. The positions were never fully established after receiving authority for them. These were among several positions that were added in the FY2020 budget as part of an ongoing effort to alleviate extensive building plan review turnaround times, with a goal of two weeks for most projects. High plan review backlogs had the effect of significantly hampering construction and renovation projects and resulted in many complaints from contractors, business owners, and members of the public. The department's effort to improve customer service and minimize regulatory burden may be impacted by this change; however, the department does believe this change can occur without significantly hampering those efforts.

The Training Academy Recruit Salaries was created in FY2021 to reflect salary and benefit costs for recruits at the Public Safety Academy separately from the Alaska State Troopers Detachments which had previously absorbed these expenses. Recruits at the Academy are placed in positions colloquially known as "8000 series" (12-8XXX), which were previously unbudgeted. These positions are now being brought on budget under Training Academy Recruit Salaries. The 17 positions established for nine months represent an estimated total of 34 recruits between Fall and Spring Academy (4.5 months each).

Transfer two full-time Department of Public Safety facilities maintenance positions to the Division of Facilities Services, formed in FY2019, and housed in the Department of Transportation and Public Facilities. The State of Alaska is transitioning from the decentralized method of facilities maintenance to the shared services method. Today, multiple state agencies own facilities but they all approach facilities maintenance differently. By centralizing this function within the Department of Transportation and Public Facilities, the process of maintaining public facilities can become far more effective and efficient. With added accountability between the Department of Transportation and Public Facilities (as the service provider) and customer agencies (the facilities owner), the process of maintaining these buildings can be streamlined and result in savings.												
Budget authority is retained by the department to fund a reimbursable services agreement with the Division of Facilities Services for the cost of services provided.												
Positions to be transferred:

Add Information Officer II (12-2087) in order to maintain clear and effective communications with the public. In light of the current state of emergency with COVID-19, this position is critical to keeping department staff and the public apprised of current and emergent public safety issues and incidents. Information Officer positions are responsible for providing timely responses to media and members of the public, keeping webpages accurate and up to date, and providing proactive outreach and education on matters of public safety.

This project maintains a critical component of the Trust's Disability Justice focus area by providing foundational knowledge for law enforcement and first responders on mental health disorders and cognitive impairments, best practices for responding to mental and behavioral health issues, laws centered around Title 47, and the State's community behavioral health system to municipal law enforcement, the Alaska State Troopers (AST), and other first responders. The Department of Public Safety (DPS) Alaska Police Standards Council (APSC) will provide 40 hours of Crisis Intervention Team training that adheres to the nationally recognized Memphis Model to APSC certified municipal and state law enforcement, correctional officers, probation officers, and village police officers. The training will provide Alaska's first responders with the tools to respond to calls for service involving persons with mental and behavioral health issues and who may be experiencing a mental health crisis, thus, providing greater public protection and keeping Alaskans safe.

In order to maintain the department's core law enforcement activities that directly protect Alaskans, supporting divisions and units are implementing operating reductions in FY2022. These changes are administered in the spirit of preserving vital services, services to grantees of the VPSO program will not be diminished through these efficiencies and no reduction is being made to VPSO grants.												
Travel is reduced by \$67.1 to reflect expectations of fewer in-person meetings due to increased use of collaborative tools such as Microsoft Teams, and limiting on-site visits. Contractual services is reduced by \$186.4 and commodities by \$87.3 to reflect realization of operating efficiencies and reduced internal cost allocations due to fewer positions.

In order to maintain the department's core law enforcement activities that directly protect Alaskans, supporting divisions and units are implementing operating reductions in FY2022. These changes are administered in the spirit of preserving vital services, but with the understanding that they provide crucial administrative, logistical, and technical support to the department's front-line employees.

Travel is reduced by \$16.1 to reflect expectations of fewer in-person meetings due to increased use of collaborative tools such as MS Teams. Contractual services is reduced by \$53.3 and commodities by \$30.0 to reflect anticipated levels and realization of operating efficiencies. Capital outlay is reduced by \$17.0 because the department does not anticipate any expenditures from this line item in FY2022.

Reduce personal services by \$98.4 by reclassing a Forensic Scientist IV position to a Forensic Technician. The Forensic Technician will work part time as an evidence custodian and part time assisting one of the forensic disciplines (preparing reagents, maintaining instrumentation, and assisting with other technical duties.) Currently this work is performed by forensic scientists. The forensic technician will free the forensic scientists up to perform casework duties and reduce turnaround time for forensic casework. The remainder of the reduction in personal services is savings from the expected retirement of senior employees who will be recruited at the entry level.

Travel is reduced by \$30.8. All travel to trainings, conferences, professional meetings, and for accreditation is completely third-party funded (e.g. federal grants). The remainder of the travel budget is solely reserved for essential travel to court and to crime scenes.

Contractual services is reduced by \$119.2. Energy efficiency measures and updating the building automation system were implemented in FY20 that will reduce utility costs in FY2021 and FY2022. A reduction in shipping and freight is realized by utilizing the King Air and other DPS resources to return evidence and transport breath alcohol supplies and instruments around the state. Consolidating service contracts into one parent contract results in a 27% decrease. The lab has implemented digital reviews of casefiles and is increasingly using digital platforms for information transmission, \$5.0 - \$10.0 savings in toner/shredding costs are expected. The Department of Public Safety Advanced Training Unit (ATU) is relocating to the crime lab, allocations of utility costs for laboratory services will consequently decrease.

Transfer authority from the Department of Transportation and Public Facilities (DOT&PF) to provide the occupying agency the funding to cover anticipated maintenance and operations costs for the following occupied buildings:

2017 – Ketchikan Court/Office Building #8 (5% occupancy)
 4009 – Public Safety Building (97% occupancy)
 7364 – Tok Combined Facility (58% occupancy)
 7092 – Delta Junction Court House (7% occupancy)
 7387 – Valdez Combined Facility (3% occupancy)

This transfer is necessary to ensure consistent treatment of DOT&PF's various facilities. In prior years, agencies were billed for occupancy of some DOT&PF facilities but not others. By aligning the facility costs with their respective budgets agencies can determine if these costs are necessary and evaluate their need in the future.
